

#19
9/25/13

- process for preparing thereof
- 217 5,461,093 **T** Biodegradable polyethylene composition chemically bonded with starch and a process for preparing thereof
- 218 5,456,920 **T** Uncoated tablets and method of producing the same
- 219 5,451,688 **T** Hexahydronaphthalene ester derivatives, their preparation and their therapeutic uses
- 220 5,444,077 **T** Ameliorant of cerebral circulation and optical isomer of NB-818, processes for its use
- 221 5,441,962 **T** Method for treating hyperlipemia
- 222 5,441,735 **T** Method for controlling soft rot, bacterial seedling blight of rice and black rot
- 223 5,436,225 **T** Plant growth regulator composition comprising a cyclohexanone compound and adjuvants
- 224 5,436,016 **T** Method of cooking food materials
- 225 5,431,925 **T** Nutritive composition for prevention and therapy of infection diseases caused by immunosuppression
- 226 5,422,343 **T** Prophylactic and therapeutic composition for MRSA infection
- 227 5,420,180 **T** Sized yarn and process therefor
- 228 5,420,121 **T** Use of 4-cholesten-3-one as an anti-obesity agent
- 229 5,418,057 **T** Thermal transfer receiving paper
- 230 5,409,912 **T** Leustroducsin H, its preparation and its therapeutic use
- 231 5,405,653 **T** Poly(vinyl alcohol)starch blends for textile sizes with improved ability to be desized
- 232 5,387,423 **T** Low calorie food material and method of manufacturing the same
- 233 5,384,180 **T** Electrostatic recording medium
- 234 RE34,837 **T** Feeds
- 235 5,380,808 **T** Process for producing water-absorbing resins
- 236 5,368,964 **T** Process for the production of a lithographic printing plate with beveled end parts
- 237 5,368,861 **T** Gastric preparation with sustained release
- 238 5,360,624 **T** Emulsion-type food
- 239 5,332,592 **T** Process for producing extruded noodle capable of being instantly cooked
- 240 5,328,903 **T** Composition for solid pharmaceutical preparations containing vitamin D3 derivative
- 241 5,308,879 **T** Process for preparing biodegradable resin foam
- 242 5,307,821 **T** Tobacco raw material and method for its production
- 243 5,294,439 **T** Stabilized benzimidazole derivative and composition
- 244 5,292,523 **T** Method for growth promotion of animals and powder compositions containing killed microbial cells of bacteria belonging to genus clostridium
- 245 5,280,032 **T** 1,2-ethanediol derivative and salt thereof, process for producing the same, and cerebral function-improving agent comprising the same
- 246 5,270,355 **T** Paper coating resin and paper coating composition
- 247 5,234,507 **T** Anti-oxidant agent for continuous annealing of stainless steel strip and anti-oxidation method using the same
- 248 5,230,893 **T** Stable agrochemical compositions including alpha-unsaturated amine derivative and

acid incorporated into a carrier

249 5,219,687  Electrophotographic lithographic printing plate precursor and edge face treatment

250 5,215,757  Encapsulated materials

SPEC/"alpha starch": 380 patents.

Hits 301 through 350 out of 380

[Prev. 50 Hits](#)[Final 30 Hits](#)[Jump To](#)[Refine Search](#)

PAT. NO.	Title
301 4,797,426	Hard polyvinyl chloride resin composition and open-cell foam made of said composition
302 4,794,015	Process for emulsifying fat or oil into aqueous phase comprising soy sauce as the main component
303 4,779,523	Apparatus for producing soybean flakes
304 4,770,194	Method of manufacturing wrinkled sheet tobacco
305 4,769,414	Absorbent compositions
306 4,763,720	Microwave process for the fabrication of cores for use in foundry casting
307 4,759,933	Method for production of protein food products or protein food materials in paste state and method for the production of food products from these materials
308 4,751,241	Pharmaceutical composition of cyclandelate having a high degree of bioavailability
309 4,748,032	Method for preventing deterioration of starch-containing foods
310 4,731,119	Desensitizing gum for planographic printing plates
311 4,728,631	Pressure sensitive recording sheet
312 4,719,172	Desensitizing gum for lithographic printing plates
313 4,709,487	Method for processing by heating and equipment for same
314 4,707,363	Soft starchy chewing gum
315 4,704,379	Pressure sensitive manifold sheet
316 4,702,921	Method for preparing fish-egg-like edible products

PAT. NO.	Title
151 5,886,014	Benzimidazole derivatives, their preparation and their therapeutic use
152 5,882,704	Process for the production of cream cheese-like products
153 5,882,670	Poisonous baits for controlling soil-inhabiting pests
154 5,880,147	Amide derivatives having ACAT inhibitory activity, their preparation and their therapeutic and prophylactic use
155 5,880,064	Carbonless pressure-sensitive copying paper
156 5,877,199	Heterocyclic compounds, their preparation and their therapeutic use
157 5,874,122	Steamed wheat flour for fry-cooking which is suitable for use in reheating in a microwave oven and production process thereof
158 5,872,117	1,2-ethanediol derivative and salt thereof, process for producing the same, and cerebral function-improving agent comprising the same
159 5,866,192	Process for producing edible material from soybeans
160 5,861,173	Long-lasting release nifedipine preparation
161 5,860,945	Disposable elastic thermal knee wrap
162 5,853,749	Gel wound dressing
163 5,849,154	Printing paper coated with low-molecular anionic acrylamide and method of producing same
164 5,843,983	Diphenylethane compounds containing a saturated heterocyclic group, their preparation, and their therapeutic use
165 5,843,973	Thiazolidinone compounds and composition for angina pectoris comprising the

compounds as an active ingredient

- 166 5,840,917 **TI** Phosphorylamides, their preparation and use
- 167 5,827,855 **TI** Hexahydronaphthalene ester derivatives their preparation and their therapeutic uses
- 168 5,823,139 **TI** Animal excreta disposing material containing waste plastic and process for the production of the material
- 169 5,807,575 **TI** Manufacture of cross-linked amylose useful as a excipient for control release of active compounds
- 170 5,798,375 **TI** Treatment of arteriosclerosis and xanthoma
- 171 5,795,871 **TI** Pharmaceutical composition for treatment of non-small cell lung cancer
- 172 5,786,009 **TI** Process for preparing low-viscous pasta sauce contained in container
- 173 5,759,607 **TI** Use of propylene glycol aliginate to improve the texture of cooked pasta and pasta-like foods
- 174 5,756,543 **TI** Bitterness-relieving agent
- 175 5,739,165 **TI** Stabilized solid pharmaceutical preparation and method of producing the same
- 176 5,726,180 **TI** Stabilized solid pharmaceutical preparation and method of producing the same
- 177 5,719,150 **TI** 1,2-ethanediol derivative and salt thereof, process for producing the same, and cerebral function-improving agent comprising the same
- 178 5,714,569 **TI** Aliphatic polyester resin and method for producing same
- 179 5,709,951 **TI** Composite deposited film and production process thereof
- 180 5,709,895 **TI** Process for producing flavor-containing capsule
- 181 5,707,640 **TI** Poisonous baits for controlling soil-inhabiting pests
- 182 5,703,157 **TI** Process of preparing copolymer latex and use thereof
- 183 5,702,501 **TI** Clayish composition for molding shaped article of noble metal and method for production of sintered article of noble metal
- 184 5,686,385 **TI** Agricultural microcapsule and production thereof
- 185 5,670,201 **TI** Low allergenic nutrient composition and method of using same
- 186 5,668,128 **TI** Aziridine derivatives, their production and use
- 187 5,658,904 **TI** 1,2-ethanediol derivative and salt thereof and cerebral function-improving agent comprising the same
- 188 5,656,689 **TI** Process for preparing copolymer latex and use thereof
- 189 5,651,997 **TI** Antacid compositions
- 190 5,648,420 **TI** Process of preparing copolymer latex and use thereof
- 191 5,641,761 **TI** Preventive agent against infectious disease of crustacea
- 192 5,629,316 **TI** Stabilized solid pharmaceutical preparation and method of producing the same
- 193 5,621,026 **TI** Gas barrier film and production process thereof
- 194 5,612,381 **TI** 1,2-ethanediol derivative and salt thereof process for producing the same, and cerebral function-improving agent comprising the same
- 195 5,612,203 **TI** Process for producing saccharides
- 196 5,610,152 **TI** Anti-obesity agent 4-cholesten-3-one
- 197 5,605,681 **TI** Mild gel deodorant composition containing soap, polymeric hydrogel forming

polymer and high level of water

198 5,604,990  Printing plate drying apparatus

199 5,603,945  Therapeutic/prophylactic agents and method of treating for urinary calculosis in pets

200 5,599,555  Encapsulated cometic compositions
